Care should be taken in this area (marked on the map above with a green polygon) during forestry operations. We would be grateful to receive any information on the circular feature we believe to be a small earthwork.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Henneb – The Trust for Welsh Archaeology, Heritage Management Dyfed region is informed and further information and advice can then be provided as required.

Kind regards

Alexandra Powell
