Dear Sir/Madam

### **Evaluation of Bryn Eithinog Forest for Forest Certification**

The forest products market is increasingly demanding assurance about the quality and environmental impacts of forest management. One way to provide this assurance is through independent verification against a published standard which defines appropriate and effective management. In forestry, this process is widely known as forest certification. This notice is to advise that Bryn Eithinog is currently being assessed for forest certification under the UK Woodland Assurance Standard (UKWAS) and a management plan produced.

The UKWAS (endorsed by the Forest Stewardship Council [www.fsc.org](http://www.fsc.org), and the Programme for the Endorsement of Forest Certification [www.pefc.org](http://www.pefc.org)) sets out the management standards which woodland and forest owners, managers and forest certification bodies can use to certify woodland and forest management in the United Kingdom. The Standard, which can be seen at [www.ukwas.org.uk](http://www.ukwas.org.uk), is the product of an inclusive and transparent process which has involved a balanced representation from the UK forestry and environmental communities.

The Standard requires that local people and relevant organisations are made aware when a forest is being evaluated and are able to engage with the manager. Bryn Eithinog has applied to join the Tilhill Forestry Resource Manager Certification scheme which is certified by the 'Woodmark Programme'. Should you have any comments to make regarding the management or certification of Bryn Eithinog please do not hesitate to write to:

*Iwan Parry, Forest Manager, Tilhill Forestry, Lloyds Bank Chambers, 14 High Street, Llandovery, SA20 0PY*

Yours sincerely
