Dear Paul,

EIA (Agriculture) Regulations - Consultation Request

Crymych SN17813163

Thank you for your EIA screening request, I have checked your map boundaries against the regional Historic Environment Record and other sources. There are no records of any historic environment features within the affected area. It does lie within the Historic Landscape Character Area of Pentre Galar (HLCA262) which is characterised by a distinctive regular field pattern laid out in 1812. See the following description:

<http://www.dyfedarchaeology.org.uk/HLC/Preseli/area/area262.htm>

If proposals compromise the historic field pattern please seek further advice from DAT-Heritage Management.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can be provided as required.

If you require any more information or guidance please get in touch.
