DAT File No 14514

Thank you for your consultation. I have checked the map boundaries against the regional Historic Environment Record (HER) and other sources and note the following historic environment features recorded within the consultation area;

Primary Reference Number (PRN) : 52064

Community : Y Ferwig

NGR : SN20624975

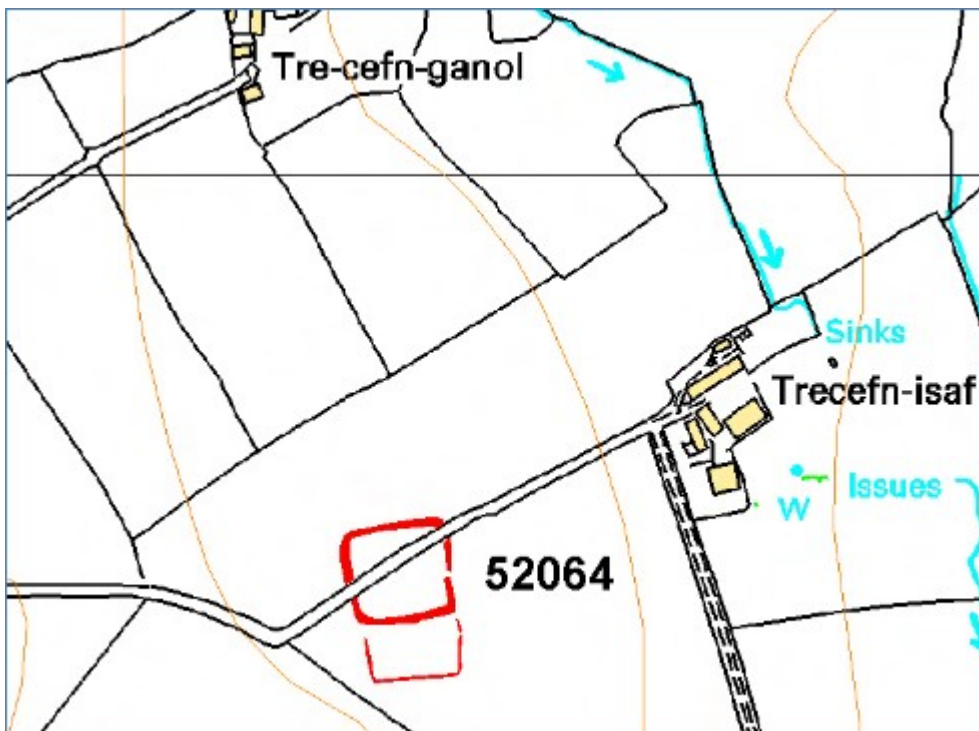

Site Type (preferred type first) : Iron Age Defended Enclosure

Summary :

A crop-marked rectangular enclosure, internally measuring 50m east to west and 45m north to south, 0.22 ha in area. A lane bisects it. The ditch is between 3.5m and 5m wide. A 3.8m wide entrance lies slightly off-centre of the mid point on the eastern side. A rectangular annexe, 50m by 28m, marked defined by a 1m wide crop-marked ditch lies, on the south side of the main enclosure.

Primary Reference Number (PRN) : 105926

Community : Aberporth

NGR : SN2437048740

Site Type (preferred type first) : Modern Military Camp

Summary :

Aerial photographs from 1942 show a military camp in this location providing dispersed accommodation for personnel at RAF Aberporth (PRN 30594). At least six huts with other subsidiary buildings are dispersed evenly around the field.

The OS third edition (published 1953) identifies the site as 'Polish Resettlement Camp', this was established in 1946 until 1948 after the airfield's closure. See PRN 30595. When visited in 2013 there were no upstanding remains, but evidence of a concrete roadway at the field entrance. A Pyper 2013. For a fuller description and references see the Archwilio website:

<https://www.archwilio.org.uk/arch/query/page.php?watprn=DAT105926&dbname=dat&tname=core&sessid=CHI21dtv0mn&queryid=Q419603001585661434>

Having assessed the application the proposals for land-spreading of waste should not have a detrimental impact on these features, which do not exhibit above-ground remains. However there may still be archaeological deposits surviving below ground, so ground intrusive activities should be avoided.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
