DAT File No 14638

Thank you for your consultation. I have checked the map boundaries against the regional Historic Environment Record (HER) and other sources and there are no historic environment features recorded within the consultation area. One site which has been recorded is now believed to be a geological feature.

Primary Reference Number (PRN) 35712

NGR: SN1825650646

Site Type (preferred type first): Natural feature

Summary : Geophysical survey showed this site to be a natural feature.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.

We are consulting you as we have received an application for a mobile plant deployment.

For Natural Resources Wales consultees:

You have been consulted because you are the named contact for the permit (NLO), or area where the activity is occurring (Waste Regulation and NRM teams). If this is incorrect please let us know as soon as possible. Please complete the comments record (which has been saved in the below DMS folder) within ten working days of this email, i.e. **by 02/07/2020**. Please ensure the record is completed by all **relevant** officers who wish to make comments. Guidance on the comments we require can be found on the comment record.

For archaeological trust consultees:

We are consulting you as per the terms of our working together agreement with you.

You can see the application documents attached to this email.

Please submit your comments by return email within ten working days i.e. **by 02/07/2020**.

Kind regards

Natural Resources Wales Waste Permitting Team
