Thank you for your consultation. I have checked the map boundaries against the regional Historic Environment Record (HER) and other sources and note the following historic environment feature recorded within the consultation area.

Primary Reference Number (PRN) 54794

NGR: SN1768248529

Site Type (preferred type first): Farmstead

Summary : A farmstead complex marked on the 1st edition Ordnance Survey map of 1889, adjacent to Felin Bedr.

Reproduced by permission of Ordnance Survey on behalf of HMSO. © Crown copyright and database right 2011. All rights reserved. Ordnance Survey Licence number 100017916.

Although we believe there are no above ground remains of this feature we would recommend the area shown in the green polygon above is avoided from waste application, to avoid damage to below ground deposits.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
