Dear Paul,

EIA (Agriculture) Regulations - Consultation Request

Maesybont SN 5561 1724

Thank you for your EIA screening request, I have checked your map boundaries against the regional Historic Environment Record and other sources and note the following historic environment feature:

There are a number of features recorded within this consultation:

PRN	649
NAME	FFYNNON-LLUAN
TYPE	Holy Well
PERIOD	Medieval
CONDITION	Near Destroyed
NGR	SN55571714

DESCRIPTION

Site of a well recorded on the 1906 2nd edition Ordnance Survey map and listed by Jones (1954) as a holy well associated with the chapel Of Llanlluan. Field observation in 1983 reported that the well had been filled in (M.Ings, 2011, from various sources). The spring is situated just behind the farmhouse the owner said that up until 18 years ago the spring had been enclosed and had supported the house with water. Since the mains supply had been connected the well had fallen into disuse and has been filled in. The site of the old well is still wet and boggy however. The owner could not tell us anything of the history of the well (AS Maull 1983).
