Dear Paul,

**EIA (Agriculture) Regulations - Consultation Request  
Machynlleth SN75269493**

Thank you for your EIA screening request, I have checked your map boundaries against the regional Historic Environment Record and other sources and note the following Historic Environment Features within this consultation area:

**PRN 121929 Post Medieval Building SN75239500**

An unnamed building is recorded on the 1st edition OS map. A Pyper 2020

**PRN 126519 Medieval Dairy SN75309491**

Hollow style dairy store recorded at this site of 3.1x2m dimensions. Most dairy stores present as earthworks, embanked hollows, or armchair-like features, cut into rising ground and framed by lateral banks. These would have been of turf or earth and timber construction. A few were substantial stone-walled structures, whilst some appear to have drystone wall-bases and one or two uncertain examples are defined by rubble banks. The basic form can be characterised as a chamber, typically part-sunken, sometimes having a narrower entrance. F.S based on J.Wiles 2021

The current condition of these features is unknown, however they may survive as ruins, earthworks or below ground deposits. Damage must be avoided in these areas shown on the map below.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can be provided as required.

If you require any more information or guidance please get in touch.
