Dear Russell,

FLA 15 20-21 Hean Castle Estate

Thank you for your consultation. I have checked the map boundaries against the regional Historic Environment Record (HER) and other sources and the following historic environment feature is recorded within the consultation area:

PRN: 98752

SITE TYPE: COAL WORKINGS

NGR: SN13290622

DESCRIPTION:

An Old shaft is recorded here on the 1:2500 1889 edition OS map. One of several coal working sites in the vicinity of Erroxhill.

Modern aerial photography shows that the area is densely wooded, so above-ground remains may still exist. One of several coal working sites in the vicinity of Erroxhill. A.Day. March 2015.

1st edition Ordnance Survey 1889 Pembs. Sheet 35.15, 25"

We recommend that forest operations should avoid damaging the remnants of the coal workings which may survive as earthworks in the woodland.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
