Dear Gerwyn,

FLA 197 20-21 Foxenhole / Pen Coed

Thank you for your consultation. I have checked the map boundaries against the regional Historic Environment Record (HER) and note the following historic environment features:

PRN7870 Post Medieval Coal Workings SN049075
A spoil tip or similar earthwork, presumably associated with 19th century coal mining in this area, shown on historic mapping. F Murphy 2015

PRN106311 Post Medieval Coal Workings SN04950748
An area of woodland is labelled 'OLD SHAFTS' on the 1921 Ordnance Survey Geological Survey map. A.Day. March 2015.

We have no information on the current condition of these features. Forestry operations should ensure that these features, which may survive as earthworks, are protected from damage.

Should further archaeological features or finds be discovered it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
