Suzanne Lilley-Owen
Team Leader, Felling Permitting
Natural Resources Wales

14th October 2019

Dear Suzanne,

FLA 201 19-20 St Davids Diocesan Land

Thank you for your consultation and attached Cadw map, clearly this proposed work is taking place in areas of high archaeological sensitivity which extend beyond the scheduled areas identified on Cadw's map. We would urge that the removal of trees is undertaken with caution to ensure that no historic structures or earthworks are damaged either in the felling or the extraction of wood. I have checked the map boundaries against the regional Historic Environment Record (HER) and other sources and provide the following map extracts to indicate what features are recorded.

001 & 002 locations on your map are located adjacent to Dewiston Mill (PRN 47598) and appear to be located alongside the tail race of the mill. We do not have any information on the current condition of this feature, but the scheduled leat (above the mill) appears to survive substantially. It may incorporate built banks or retaining walls, or be an earthwork feature. Either would be vulnerable to damage caused by tree felling and replanting.

1st edition, 1889, OS Pembrokeshire sheet 20.03 (scheduled area in red)

Location 003 is adjacent to listed buildings and 004 lies within the scheduled area of The Bishop's Palace and garden. We presume that Cadw are supplying specific details for the scheduled area.

Location 005 lies at the head of the scheduled mill leat for Dewiston Mill – we presume that Cadw are supplying specific details for the scheduled area.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
