Dear Russell,

**FLA 274 20-21 Clettwr & Coed Rhyd Fach**

Thank you for your consultation. I have checked the map boundaries against the regional Historic Environment Record (HER) and other sources and note the following historic environment records within the consultation area;

**PRN96133 Post Medieval Shaft SN66019022**

*The Ordnance Survey 2nd edition map (1905) records an "Old Shaft" at this location. Large rockcut trench 15 feet wide and 12 feet deep on lode; no trace of shaft (Protheroe-Jones 1993, mine 34, no. 23).*

**PRN96134 Post Medieval Level SN66089021**

*The Ordnance Survey 2nd edition map (1905) records an "Old Level" at this location. Rock cut level, open, wet; and large vegetated tip (Protheroe-Jones 1993, mine 34, no.24).*

**PRN96135 Post Medieval Level SN66109020**

*Rhydfach level - site obscured by agricultural buildings (entrance probably lost). Tips to south east probably covered by farmyard (Protheroe-Jones 1993, mine 34, no 25).*

**PRN96136 Post Medieval Spoil Heap SN66109016**

*Vegetated tips, north east end much removed (Protheroe-Jones 1993, mine 34, no.26). Probably from level PRN 96135.*

Forestry operations should endeavour to avoid damaging any of these features which are shown on the following maps.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
