Dear Russell,

**FLA 555 19-20 Bottom Bog**

Thank you for your consultation. I have checked the map boundaries against the regional Historic Environment Record (HER) and other sources and note the following historic environment feature recorded within the consultation area:

PRN: 51969  
TYPE: ROAD  
PERIOD: ROMAN  
DESCRIPTION:

Two segments of Roman road RR69c (PRN5222) between Llanio and Trawscoed forts, surviving as extant lengths of agger between SN64816620 and SN64926651, observed from minor road to east.

On the map below the sections of Roman Road which have survived as earthworks are shown in red, in the areas between the earthworks the levels of survival unknown.

We therefore recommend that forestry operations and replanting should be restricted and avoided in those areas marked in red.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
