Forestry operations should avoid damage to any of the features listed above and shown on above map. In addition the consultation area lies adjacent to a scheduled monument, and the scheduled area is shown in red on the map above. No operations should impinge on the scheduled area without consent from Cadw.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
