Dear Russell,

FLA 71 20-21 Blaen Llwydiarth

Thank you for your consultation. I have checked the map boundaries against the regional Historic Environment Record (HER) and other sources and note the following Historic Environment features within the consultation area:

PRN 62139 Post Medieval quarry SN10032663

Linear quarrying activity, extending along the line of a minor road for approximately 100m. Identified on the Ordnance Survey 1st edition map (1890).

PRN 62141 Post Medieval mining feature? SN09912663

A circular mound recorded on the Ordnance Survey 2nd edition map (1907) in area of furze and emerging deciduous woodland. Uncertain function though it may be associated with possible lead workings (PRN 25496). The present condition of the mound is not known.

Reproduced by permission of Ordnance Survey on behalf of HMSO. © Crown copyright and database right 2011. All rights reserved. Ordnance Survey Licence number 100017916.

We do not know the current condition of these features however they may survive as visible remains which should be protected from damage during forestry operations.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
