Dear Russell,

FLA 78 20-21 Panteg and Caroryn Woods

Thank you for your consultation. I have checked the map boundaries against the regional Historic Environment Record (HER) and other sources and note the following historic environment features recorded within the consultation area:

PRN 47723

SITE TYPE: PLANTATION

PERIOD: POST MEDIEVAL

NGR: SN15921619

DESCRIPTION:

This long, narrow curving plantation to the east of Panteg mansion and gardens is first shown on the 1891 Ordnance Survey map incorporating a mixture of coniferous and deciduous trees. A strong design element is suggested here. The woodland would have formed a screen, masking the view to the north, instead focusing the eye towards the south, over the gardens and Lampeter Vale beyond. Aerial photographs indicate that the original plantation had been felled by 1955. A commercial forestry plantation now incorporates the former area of the plantation. WWS 2003

It is recommended that this plantation is restored sympathetically and that a mixed profile of tree species is incorporated into the future management of this area.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
