Date last cultivated	-
Additional information	-
Service Provider	Dyfed Archaeological Trust
Officer	Alice Pyper
HEF UID	-
Decision (If the proposal is considered to be inappropriate at this location please provide an explanation)	<p>Thank you for forwarding this Glastir Woodland Creation proposal to us.</p> <p>Dyfed Archaeological Trust have reviewed the new woodland planting for Glasfryn against the Historic Environment Records database and other readily available record sources and have assessed that the application, as submitted, will not have any detrimental impact on historic environment features.</p> <p>The application lies within the Pen Gaer: Garn Fawr and Strumble Head Registered Historic Landscape (HLW (D) 11) which has been further subdivided into the Historic Landscape Character Areas; Llanwnda (HLCA 357) and Garnwnda (358). These are described as largely treeless and exposed though with scrubby woodland and trees planted for shelter. We appreciate that the proposals should not have a detrimental impact as the parcels are small and scattered. We would like to emphasise that the Scheduled Monument PE518 Parc Hen Standing Stone, is given a substantial buffer of at least 20 metres, and preferably more, so as not to impact the setting, or any associated though undiscovered archaeology.</p> <p>Dyfed Archaeological Trust have concluded that the application, as submitted, complies with the UKFS <i>Forests and the historic environment</i> guidance. No further WAT consultation is required.</p>
