

Glastir Woodland Creation: Consent Advice Form

CRN	A0060727
Glastir Farm Name and Scheme Ref.	Glasfryn EOI 7618165
Parcel No.	SN5227:1797 0.7ha SN5228:2515 1.0ha SN5228:0712 1.0ha
NGR	SN52152806
Option No.	801
Option Name	Native Woodland Biodiversity
Date last cultivated	-
Additional information	-
Service Provider	Dyfed Archaeological Trust
Officer	Alice Pyper
HEF UID	314243
Decision (If the proposal is considered to be inappropriate at this location please provide an explanation)	<p>Thank you for forwarding this Glastir Woodland Creation proposal to us.</p> <p>Dyfed Archaeological Trust have reviewed the new planting proposals for Glasfryn against the Historic Environment Records database and other readily available record sources and have assessed that the application, as submitted, has the potential to have an impact upon the following Historic Environment Features (HEF's):</p> <p>PRN 11026 BRONZE AGE STANDING STONE SN521280 A recumbent stone measuring 1.3m x 1m is situated approx 100yds from the gateway along the western edge of the field. See photo. A pile of stones is situated on the eastern edge of the field but this appears to be a clearance cairn. L Weeks DAT 1985</p> <p>A thorough search of all the field boundaries plus the surrounding fields yielded nothing about this Standing stone (11026). N Cook PFRS 2003</p> <p>Dyfed Archaeological Trust therefore advise that in order to comply with UKFS <i>Forests and the historic environment</i> guidance, the following advice should be adhered to in the Glastir Woodland Creation plan: e.g. – A buffer of at least 10 metres around the location of this</p>

	standing stone should be left unplanted. Although the stone may have been removed, standing stones often have associated below ground archaeology which is not visible on the ground surface. Therefore as much open ground as possible should be incorporated into the planting design around the location of this stone.
