Application form for deployment of mobile plant for land and/or groundwater remediation

The Environmental Permitting (England and Wales) Regulations 2016

Please read through the MPP2 guidance notes before filling this form in.

This form may only be used for deployments for land and/or groundwater remediation activities where the operator holds a permit referring to:

- SR2008 No27 Mobile plant for the treatment of soils and contaminated material, substances or products; or
- Bespoke treatments for land and groundwater remediation.

Contents

Section A: About your permit

A1 Your permit details

Section B: Deployment details

B1 Contact information

B2 Consultations before your deployment application

B3 About the site

B4 Waste types and quantities

B5 Specified activities to be carried out on site

B6 Activities involving the import of waste

B7 Duration of this deployment

B8 Management supervision

B9 CSM and Risk Assessment

B10 Pollution Control

B11 Emission Monitoring Plans

B12 Record Keeping - Commissioning, operating and maintenance

Section C The Data Protection Act 1998

Section D Confidentiality and National Security

Section E Declaration

Section F Fee and Payment

Section G Supporting Documents

Section H How to contact us

Section A: About your permit

A1 Your permit details

A1.1 Permit under which this deployment is taking place

Please specify the type of permit and the permit number (EPR number) that you will operate under. If you have more than one permit, you will need to specify which set of permit conditions you would like us to use to make our determination. Note: you can only select one permit type.

V	SR2008 No27 Mobile plant for the treatment of soils and contaminated material, substances, or products.		
Perm	nit number: AB3601FD		
		•	
	Bespoke permit for land and groundwater remediation.		
Perm	Permit number:		

A1.2 Name and address of permit holder (operator) Name of the operator: Adler & Allan Ltd Address 1:Units 2 & 3 Hillcrest Avenue Address 2:Carlisle Address 3:Cumbria Post Code:CA1 2QJ **Section B: Deployment details B1** Contact information B1.1 Who can we talk to regarding this deployment application? Name of contact: Nathan Male Organisation: OHES Environmental Ltd Address 1: The Dairy Address 2: Wassage Way Address 3: Hampton Lovett Industrial Estate Post Code: WR9 0NX Phone Number(s) Office: 01905 794351 Mobile: 07879630850 Email: nathan.male@ohes.co.uk B1.2 What is your preferred method of correspondence? $\overline{\mathbf{V}}$ Email; or Phone **B2** Consultations before your deployment application B2.1 Have we been consulted on your Conceptual Site Model/Risk Assessment/ Remediation Strategy? Yes – please provide reference number and name of officer who was consulted. R Consultation Reference: PAN-009306 / EPR/AB3601FD Officer: Leuan Davies

Form MPP2: Application form for deployment of mobile plant

Form MPP2: Application form for deployment of mobile plant

B2.2 H	lave there been any changes to your proposal since its consultation?	
R	Yes - please provide details of the changes below. If your proposal has changed, this may require further assessment and may extend the determination time.	
R	No	
	N/A	
proprior organin ou remain desc	proposed that the current LNAPL recovery work will be supplemented by injection of rietary agents designed to enhance LNAPL recovery and oxidise dissolved phase nic contamination in groundwater. The current system deployed at the site was detailed in previous application referenced PAN-009306 / EPR/AB3601FD. This system will aim on site and be operational during the proposed injection works. A detailed ription of the proposed works is given in the document referenced R0022.NM26-06-3661.ELR_Llandysul attached to this application.	
applic <u>Pleas</u>	f you have not received any planning or pre-application advice, would you like this cation to be assessed without having remediation targets pre-agreed by us? e note it is your responsibility to ensure remediation has been completed to a actory state. Yes	
	No – please complete this pre application process <u>before</u> submitting this application by contacting our customer care center.	
	N/A	
B2.4 H	Have you had any other pre-application advice from us?	
	Yes - please provide a reference number.	
$\overline{\checkmark}$	No	
Pre-	application reference:	
	bout the site

Pern	nit number:	

Form MPP2: Application form for deployment of mobile plant Contact Name: Phone: Email:

B3.3 Include a site plan showing area of land where the treatment will take place.

Please provide a site plan reference and ensure the site plan includes all items in section B3.4

Site plan reference: 13661_Certas Oil Depot Llandysul_F10 - Groundwater treatment system r2-A4 Landscape

B3.4 Please tick to confirm your site plan contains the following;

- R Operating boundary
- R Security and access arrangements
- R Areas of waste soils and contaminated material, substances or products for remediation by the mobile plant.
- R Location/siting of principal plant and equipment
- R Process, treatment, storage, and quarantine areas
- R Drainage systems
- R Location of boundary monitoring points and pollution control units
- R Potential receptors (i.e. Housing, watercourses etc.)
- R Protected sites (if applicable i.e. SAC, SPA, Ramsar or SSSI within 1 km)

B4 Waste Types and Quantities

B4.1 Specify the waste types, quantities, contaminants, and European Waste Catalogue (EWC) code for each waste to be treated on site. Also, provide the treatment technologies to be used for each waste.

What material are you treating	Quantity (m ³)	Contaminants to be treated	Six digit EWC code	What treatment technology will you be using?
Groundwater contaminated with Kerosene	12,600	Kerosene	13-05-07*	Injection of proprietary reagents with surfactant and oxidant properties. Pumping groundwater for above – ground separation and carbon filtration

B5 Specified activities to be carried out on site

B5.1 Please supply details of how the specified technology is suitable for treatment.

Insert details **or** provide supporting document reference, including section and page number. Please see separate report referenced R0022.NM26-06-20.13661.ELR_Llandysul

B5.2 Provide details how residual materials/waste which cannot be treated by the specified technology are to be handled at the site

B3.2 Provide information on the site supervision plan for your technically competent manager. Specify what treatment methods can be operated unsupervised, and provide a justification why this should be the case. (See 'How to comply with your environmental permit' guidance document for more information) Insert details or provide supporting document reference, including section and page number. A total of three injection rounds are planned. Each injection round comprises batch mixing of two separate chemical agents with water to create a solution (approx. 5%) for gravity fed injection to a series of wells. Each of the three injection events will take one to two days to complete. The technically competent person will be present during each injection round. B9 Conceptual Site Model and Risk Assessment Use this section to outline the likely impact of your operations on the environment. B9.1 Please provide a conceptual site model (CSM) which identifies all plausible pollution linkages (source-pathway-receptor relationships) and potential impacts to the local environment which could arise as a result of the proposed treatment activities. (A template and further information is available in the MPP2 guidance notes.) Insert details or provide supporting document reference, including section and page number. Please see attached spreadsheet referenced Llandysul RA and EMP – MPD No 2 - ISSUED B10 Pollution Control (for noise, dust, particulates, fibres, aerosols, odour, Volatile Organic Compounds, vapours, gases, fuel, oil and / or chemical storage, vibration, and pests) B11.1 Please provide details of any site specific measures needed to control/minimise emissions, and prevent pollution of the environment and/or harm to human health resulting from your treatment activities (the potential risks should have been identified in your risk assessment) Insert details or provide details of any site specific measures needed to control/minimise emissions, and prevent pollution of the environment and/or harm to human health			
B8.2 Provide information on the site supervision plan for your technically competent manager. Specify what treatment methods can be operated unsupervised, and provide supermit guidance document for more information) Insert details or provide supporting document reference, including section and page number. A total of three injection rounds are planned. Each injection round comprises batch mixing of two separate chemical agents with water to create a solution (approx. 5%) for gravity fed injection to a series of wells. Each of the three injection events will take one to two days to complete. The technically competent person will be present during each injection round. B9 Conceptual Site Model and Risk Assessment Use this section to outline the likely impact of your operations on the environment. Please	e see attached spreadsheet referenced Llandysul RA and EMP – MPD No 2 - ISSUED

B12 Record Keeping - Commissioning, operating and maintenance

B12.1 Provide details of commissioning, operating and maintenance including documentation and record-keeping to ensure that emissions from the process do not cause pollution of the environment and harm to human health.

Insert details or provide supporting document reference, including section and page number.

Please see attached document referenced OM001.PL 10-01-20.13661. Llandysul, for details of the procedures for system operation including checks and maintenance regime. These will be documented and records held on site. Emissions monitoring will be as per the attached spreadsheet referenced Llandysul RA and EMP – MPD No 2 - ISSUED

Section C: The Data Protection Act 1998

We, the Natural Resources Body for Wales (hereafter 'Natural Resources Wales), will process the information you provide so that we can:

- deal with your application;
- make sure you keep to the conditions of the license, permit or registration;
- process renewals; and
- keep the public registers up to date.

We may also process or release the information to:

- offer you documents or services relating to environmental matters;
- consult the public, public organisations and other organisations (for example, the Health and Safety Executive, local authorities, the emergency services, the Department for Environment, Food and Rural Affairs) on environmental issues;
- carry out research and development work on environmental issues;
- provide information from the public register to anyone who asks;
- prevent anyone from breaking environmental law, investigate cases where environmental law may have been broken, and take any action that is needed;
- assess whether customers are satisfied with our service, and to improve our service; and respond to requests for information under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004 (if the Data Protection Act allows).

Form MPP2: Application form for deployment of mobile plant

We may pass the information on to our agents or representatives to do these things for us.

Section D: Confidentiality and National Security

We will normally put all the information in your application on a public register of environmental information. However, we may not include certain information in the public register if this is in the interests of national security, or because the information is confidential.

You can ask for information to be made confidential by enclosing a letter with your application giving your reasons. If we agree with your request, we will tell you and we will not include the information in the public register. If we do not agree with your request, we will let you know how to appeal against our decision, or you can withdraw your application.

You can tell the Secretary of State that you believe that including information on a public register would not be in the interests of national security. You must enclose a letter with your application telling us that you have told the Secretary of State and you must still include the information in your application. We will not include the information in the public register unless the Secretary of State decides that it should be included.

	ick the box below if you are certain that you wish information to be confidential. nay delay your application.
	Please treat the information in my application as confidential
	he box below if you have written to the Secretary of State to claim national security ur application.
	I attach a letter stating that I have written to the Welsh ministers explaining why my information should not be included on the public register for national security reasons.
Sec	ction E: Declaration

Please read through the following information before ticking the box below.

If you knowingly or recklessly make a statement that is false or misleading to help you obtain a mobile plant deployment (for yourself or anyone else), you may be committing an offence under the Environmental Permitting (England and Wales) Regulations 2016.

I declare that the information in this application is true to the best of my knowledge and belief. I understand that this application may be refused or approval withdrawn if I give false or incomplete information.

If you deliberately make a statement that is false or misleading in order to get approval you may be prosecuted.

☑ Tick this box to confirm that you understand and agree with the declaration above

Section F: Fee and Payment

Please see published annual charging scheme and guidance for information on current fee.

This section is required to be completed for all deployments. Please tick and complete one of the boxes below indicating the payment method and correct fee.
