Dear Gwenda,

EIA (Agriculture) Regulations - Consultation Request

Trawsgoed SN 6885 7395

Thank you for your EIA screening request, I have checked the boundaries against the regional Historic Environment Record and other sources. The consultation area includes an Iron Age Hillfort which is part of the scheduled monument, CD125 Coed Ty'n y Cwm Camps, this comprises three earthwork enclosures in close proximity to each other (see map below). Please could you ensure that Cadw have been consulted regarding the Scheduled Monument.

Although the other two scheduled enclosures lie beyond the consultation area their close proximity suggests a high potential for further associated but unrecorded archaeological deposits which may be subject to damage from ground intrusive activity. If proposals include any ground intrusive activity please provide further information to DAT heritage management.

In addition to the scheduled site, there is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can be provided as required.

Please feel free to contact me to discuss further.
