Future woodland management should address how best to maintain the historic configuration and visual character of the landscape park around Nanteos. Nanteos is a Cadw Grade II* registered parkland (Shown here are a Green Polygon). It is important that Cadw is consulted for further advice as part of this application.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
