98749	Part of the Saundersfoot Railway passes through the application area, now disused but still in use as a pathway. The Saundersfoot railway was a 4 foot railway built in 1829 comprising two principal mineral railways and many side branches. The line close	Railway	SN14460673
108460	An adit for iron ore mining associated with a large spoil tip (PRN 108461) on Sardis Mountain, Amroth. A Day March 2015	Adit	SN1433506832
108461	A large spoil heap associated with an iron ore mine (PRN 108460) on Sardis Mountain, Amroth. A Day March 2015.	Spoil Heap	SN1437306800

The current condition of some of these features is unknown; however they may survive as ruins, earthworks or below ground archaeology. Felling operations should avoid causing damage in these areas.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
