The current condition of some of these features is unknown; however they may survive as ruins, earthworks or below ground archaeology. Felling operations should avoid causing damage in these areas.

Although outside the consultation area, care should be taken during felling and thinning operations near to PRN 3796 (Scheduled Monument PE085) marked here as a red polygon. Please consult Cadw for any further information.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
