

Glastir Woodland Creation: Consent Advice Form

CRN	A0059894
Glastir Farm Name and Scheme Ref.	Caron Estate GWC 7602158
Parcel No.	SN8053:0862, SN8053:2536, 09/08/2021 Additional parcel SN7462:3728
NGR	SN80145363, SN74526229
Option No.	802; 803
Option Name	Native Woodland Carbon; Enhanced Mixed Woodland
Date last cultivated	
Additional information	
Service Provider	Dyfed Archaeological Trust
Officer	Alice Pyper
HEF UID	315768, 315769, 311207
Decision (If the proposal is considered to be inappropriate at this location please provide an explanation)	<p>There are two Historic Environment Features (PRNs 19968, 121940) within the consultation area, both are historic farmsteads. Modern aerial photographs indicate these are still upstanding and may be in use still. Green polygons have been drawn around the core of the historic farmsteads, within which no planting should take place. In addition, historic field banks extend out from these two farmsteads, these must be protected from damage.</p> <p>A bronze age burnt mound (PRN 8526) is recorded in close proximity to the Nant yr Hafdre, but we have no up to date information on its precise location. These features are recognised as a kidney shaped mounds made up of burnt stones. We recommend that open space be incorporated into this area to avoid causing damage to this or any associated features.</p> <p>Revision 05/08/2021 to include second parcel SN7462:3728, PRN 125809 – A cairnfield identified during the Royal Commissions Upland Survey. Some of these may be clearance cairns but given the close proximity of the scheduled monument funerary cairn (PRN 8545: CD186) there may well be more which are Bronze Age funerary monuments. A Pyper 2021</p> <p>The area marked in green should be protected from damage; no planting and vehicle tracking.</p>
