Dear Alice

NRW are starting to progress another project to look at coastal management options and habitat creation. It's not far away from the site at Laugharne Lower Marsh I sent for consultation on 26th October. The site is called Mwche and is at SN 32194 11847.

We would like to consult DAT at this early stage under the MoU for our screening arrangements to identify heritage risks, constraints and opportunities.

The project is aiming to create 33ha of habitat shown as the brown hatched area, with the National Trust as a key landowner.

Regards

Laura
