Any activities must avoid causing damage to these features, shown in green on the map above. Although, we have no current information regarding the survival of the stones, so care should be taken to protect any within that area.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can be provided as required.

If you require any more information or guidance, please get in touch. DAT would also appreciate any updates to the project and encourage contact if the recommendations are unable to be fulfilled.
