

BRECON AND MONMOUTHSHIRE CANAL MONUMENTS RECORD CARD		Monument Number: MB202 NEW INN
Monument Name:	Bridge 57 and GWR sign	
Map Reference:	330142 201799	
Official Status:	Listed Building Grade II - Ref18735 National Park	
<p>Description:</p> <p>History The Brecknock and Abergavenny Canal was promoted in 1792 to connect the upper Usk valley to the Monmouthshire Canal at Pontymoile and from there to the sea at Newport. Construction began in 1797, with Thomas Dadford Jnr. as engineer, and the first section, from Gilwern to Llangynidr was completed in that year with the stretch as far as Brecon following in 1800. Work then stopped for a time with the result that the section to the Blaenavon Road east of Govilon was not completed until 1805, now with Thomas Cartwright as engineer. Further funds had to be raised and the last section from west of Llanfoist to Pontymoile was completed between 1809 and 1812, with William Crossley as engineer. Linked to the tramroads the canal was an important artery for trade in iron, lime and coal. In 1865 the Monmouthshire and the Brecknock and Abergavenny Canal Companies merged becoming the Monmouthshire and Brecon Canal Company. Later still in 1880 the canal was bought out by the Great Western Railway and gradually the canal was run down until it was abandoned finally in 1962. Restoration work was begun in 1964, and the canal is once again open between Pontymoile and Brecon with the title Monmouthshire and Brecon Canal.</p> <p>Reason Included for its special interest as one of the unaltered surviving early C19 bridges on this canal.</p> <p>Exterior Accommodation bridge over the Monmouthshire and Brecon Canal. Semi-elliptical arch with voussoirs; squared, faced and coursed stone; parapet with slab coping; curving abutments. Bridge number on south face of arch. Towpath runs beneath bridge arch on east side. Great Western Railway 'No locomotives..' sign at west end of bridge.</p> <p>The bridge measures 5050mm along the towpath.</p>
