COMPILER'S NAME:

B.V.W.

DATE 12.VII.76.

COMMENT

AUTHORITY

banks were of layers of clay, length at N 310ft.
S. 280ft. + E + W 220ft. width about 15ft.
height 4ft. gateways were positioned in middle of N
and S sides. The bank ~~top~~ top had postholes for
a palisade. A group of five pits on the SE angle
indicated a watch tower & at the N + S gateways
guardrooms or platforms were deduced.

Arch. Camb. 14.

Probably guarded a road running E from Trawscod
to link with the route between Caerwys + Castell
Collan.
